### **SACRAMENTO MARRIOTT RANCHO CORDOVA A “GREEN HOTEL” – AWARDED “LEADERSHIP LEVEL” IN THE GREEN LODGING PROGRAM**

**Rancho Cordova, CA , September 28, 2014** – The Sacramento Marriott Rancho Cordova’s effort to “**GO GREEN**” has resulted in being awarded the **Leadership Level** in the **California Green Lodging Program** by the State of California’s Department of General Services.

The Green Lodging Program recognizes those “green hotels” doing their part to keep California green. The program brings together the lodging industry, state travelers and the environment, encouraging the diversion of waste from landfills and the conservation of energy and water, thus providing cleaner air to breathe. The program encourages state travelers to seek out these certified “green hotels” like the Sacramento Marriott Rancho Cordova.

At Sacramento Marriott Rancho Cordova, we take our responsibility to the environment seriously. We work to cut our water consumption, reduce our energy usage, decrease our landfill waste output and work other eco-friendly actions into our daily operations. We’re proud to be a part of Marriott International’s Strategy for Contributing to Environmental Conservation, which seeks to understand and act on the direct and indirect environmental impacts of the company’s business operations.

“We are proud to receive this designation from the State of California for our tireless efforts to uphold the highest standards of integrity and environmental ethics in our daily operation” said Marco Filice, General Manager.

The Sacramento Marriott Rancho Cordova Hotel is located minutes from Folsom attractions and the downtown Sacramento Convention Center. Visitors enjoy all of the charm of Rancho Cordova, downtown Sacramento, and are able to visit the nearby abundant outdoor recreation in the area. The hotel offers an elegant Four-Diamond Experience with 14,000 sq. ft. of flexible meeting space, oversized elegant guest rooms, Starbucks, and our award-winning restaurant, Formaggio Taverna and Patio.
